Mobx 3

1 상태관리 라이브러리

computed

(https://mobx.js.org/computeds.html)

getter

should not have side effect or update other observables

Avoid creating and returning new observables

reactions(side effect)

(https://mobx.js.org/reactions.html#autorun)

autorun

reaction

when

Store

(https://mobx.js.org/defining-data-stores.html)

best practice

multi store

Reactive

(https://mobx.js.org/understanding-reactivity.html)

정리

Mobx 3

Computed	→	getter pure
reaction	→	side effect
reactive	→	observable 인 것이 바뀔때
